Dr. Martin Luther King, Jr.

Orange County and Mayor Teresa Jacobs
Commemorate the 50th Anniversary of the Civil Rights Act of 1964
Wednesday, July 2, 2014
11 a.m. to noon
Orange County Mayor Teresa Jacobs and the Orange County Regional History Center will hold a brief ceremony to commemorate the 50th anniversary of the Civil Rights Act of 1964. The 50th anniversary of the Civil Rights Act, the nation’s most significant civil rights legislation, marked the beginning of a new era of national emphasis on the elimination of racial discrimination in public places, places of public accommodation, and in educational institutions. Please join Mayor Jacobs as she dedicates a permanent exhibit on the Full Sail University students that will be displayed at the History Center. The program will feature Monica King from the Civil Rights Act of 1964 as the program speaker and Carl Greene, the producer of Soul Food.

2014 JUNE 16
Happy Birthday to Mary McLeod Bethune
Born on July 10, 1875

A leader in the civil rights movement, Mary McLeod Bethune was a child of former slaves. She graduated from Scotia Female Institute in 1895, she believed that education provided her life's work and movement. In fact, that year she founded the Daytona Normal and Industrial Institute for Negro Girls in Daytona, Florida, in 1924. Starting out with just one room that was filled with just 35 students over the next five years, Bethune served as the school's president and remained a teacher and leader ever after. The school increased its enrollment from 50 students in 1925.

In 1933, the school's name was changed to Bethune-Cookman College, one of the first colleges in the nation to be named after an African American woman. In addition to her work at the school, Bethune did much to contribute to American society as a whole. She served as the national president of the National Association of Colored Women, was the first woman to be named to the NAACP's board of directors, and was a driving force behind the creation of the Federal Emergency Administration of Public Works (FEAP), which created jobs for African Americans during the Great Depression. She also participated in the United Nations Conference on Human Rights.

In 1944, Bethune became a special advisor to President Franklin D. Roosevelt's Council for Negro Affairs. Her work with the council focused on promoting the rights of African Americans and ensuring their participation in the war effort. Bethune's tireless efforts earned her the respect of many political leaders, including President Harry S. Truman, who appointed her to the National Advisory Committee for Aeronautics (NACA) in 1947.

In 1955, Bethune was honored with the highest civilian honor given by the United States government, the Medal of Freedom. She died on May 18, 1955, at the age of 79. Today, Bethune-Cookman College is a leader in higher education, continuing the legacy of its founder and inspiring generations of students to pursue their dreams and make a difference in the world.

Our nation’s Declaration of Independence, written and adopted in 1776, states that all men were created equal and had been granted an inalienable right to life, liberty and the pursuit of happiness. But for nearly two centuries, that bold vision was marred by slavery and indentured servitude as well as discrimination on the basis of race, religion, gender, wealth and station of birth. It was not until 1964 – exactly one half-century ago – that equality of rights and guarantees of equal citizenship for all became codified by the passage of the Civil Rights Act.

In recognition of that monumental legislation, institutions and individuals throughout Central Florida will be examining the impact of the Civil Rights Act. What changes have we seen in our lifetime? What issues remain to be addressed? What tools do we need to move ahead in challenging bigotry and intolerance in all of its forms?
